New York Nov 19. 1839

Messrs Dench Stubbs & Parker

Gentlemen

We have been waiting some days an answer from Connecticut about the Iron and have concluded in reply to your offer by the letter of the 11th to defer for the present any purchase any more Pig Iron — as the Matter appears to stand between you in Phila: in a day or two we will then arrange and finally determine if we will take any more Iron on the Contract for 65 Tons If anything occurs between now & then we will write you fully on the subject —

Will you favour us with Sales of Rods we are desirous of having Sales in order to make the Sales for all Sold and say what you will give for any on hand

Yours Respectfully

Davenport & Runey
